SUPPLEMENT TO REPORT NO.

- There is an acute shortage of raw naphtha in Czechoslovakia. The Fanto Morks in Fardubice had reduced the working period to one half of a shift.
- The lannesmann factory in Pardubice (ripes) has been idle for two weeks because of shortage of raw materials. (The work is limited to cleaning the machines.)
- 3. There is a great shortage of rare metals and ball bearings. Frocurement of one or two units involves protracted correspondence. Bata dispatched a special rlane to Sweden to get 5 ball bearing units.
- The military production sector of the Skoda Jorks is being moved to Slovakia. Only locomotives and tractors will be produced in Filsen; the tanks and runs will be produced in Dubnica Nad Vahom and Fodbrezova.
- The search for uranium ore deposits within the area of Jachymov-Klasterec 5. Nad Ohri is being conducted exclusively by the Russians.
- The munition factories in Policka and Vsetin have been producing at full capacity for the last two months.
- The largest paper factory in the Krkonose (Riesengebirge) area has been producing blackout paper for the last two months.
- When the BRC from London reported that Bocek had been arrested, he was 8. visiting his uncle (priest) in Jany, which is about 15 km from Nove Mesto
- Informant did not confirm the presence of Red Army units in Moravia or elsewhere in Czechoslovakia nor did he mention anything about the preparations for their billeting.
- 10. Ejem, Commander of the Trague garrison, is Slansky's protege. This explains Ejem's rapid promotion. It is expected that he will be assigned an important military or public function.
